The Audi A6 and S6

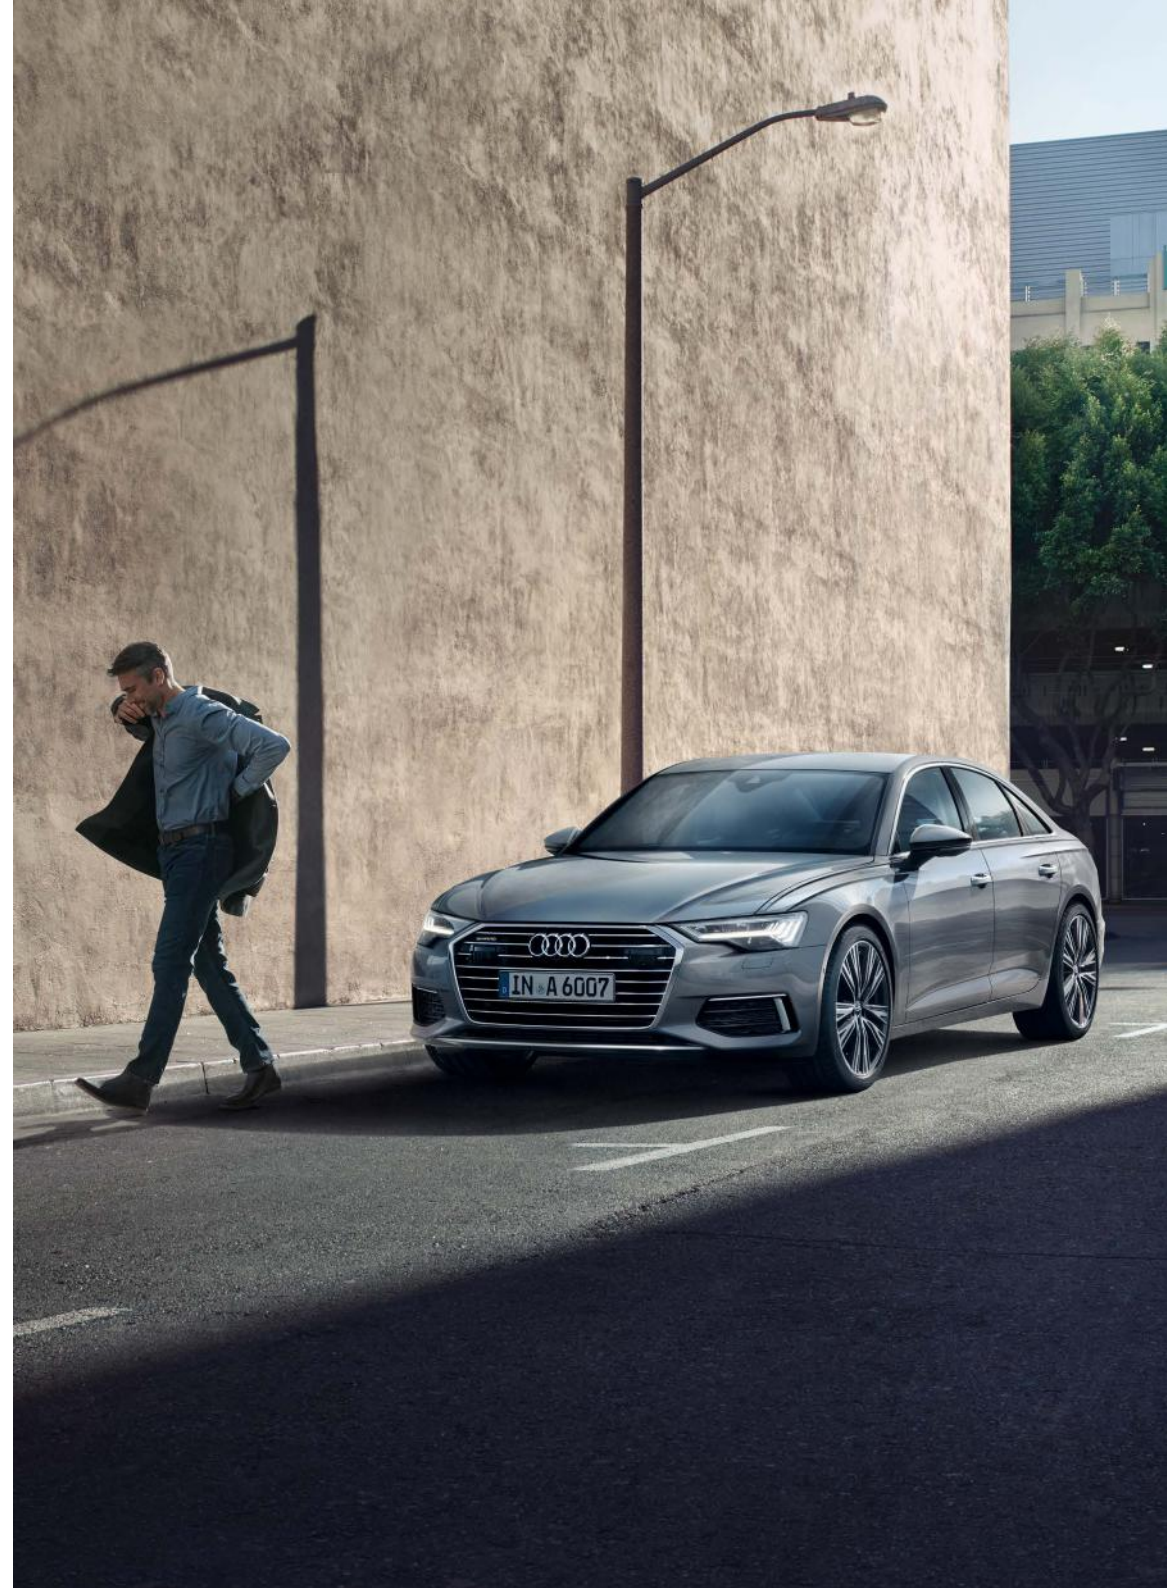

Future is an attitude

Audi Vorsprung durch Technik

Elegant, innovative and intelligent

The Audi A6 and S6 are here to set a new pace in the executive class. Whether you're looking for form and function or performance and style, the Audi A6 and S6 deliver the best of both worlds with a progressive elegance.

Audi Vorsprung durch Technik

Performance at its finest

Experience true progress in the Audi A6.

A perfect balance of form and function, the Audi A6 instantly captures attention with its sharp new design, athletic performance and agile handling.

Sit back and enjoy true cutting-edge technology through the Audi virtual cockpit, MMI Navigation, Audi smartphone interface and a cabin that completely resets the bar in design and finish.

Audi Vorsprung durch Technik

Progress isn't just felt. It's experienced

The Audi S6 is a sporty all-rounder with a comprehensive range of infotainment and driver assistance systems a powerful drive system and a striking exterior.

The power of the Audi S6 is generated by a 2.9 litre turbocharged engine.

Thanks to the engine's 331kW and maximum torque of 600 Newton metres, you can accelerate from 0 to 100 km/h in 4.5 seconds. The result is the very embodiment of luxury and performance.

Room for more

The Audi A6 is built to fit your lifestyle. The interior is both stylish and spacious. Its lengthier passenger compartment provides more legroom, especially for passengers in the rear. Equipped with MMI navigation plus, Audi virtual cockpit plus, Audi smartphone interface and electric seats with memory, your comfort and convenience is always the priority.

In the Audi S6, the illuminated aluminium door panels with the S emblem accented by a rhombus give you your first taste of sporty superiority when you open the driver and passenger door. The standard sport seats with S emblem ensure that you are seated in the best driving position and are available as standard with a memory feature that remembers each driver's preference. The interior can be styled to cue your tastes with a range of optional leather packages and decorative inlays.

Innovation on display

A combination of perfectly tuned sensors, cameras radar and ultrasound technology detects and assesses your driving situation, assists you when you need it and intervenes if there is no alternative.

The Audi S6 has important infotainment systems that are directly in viewing and operating range. The standard Audi virtual cockpit, a fully digital instrument cluster with a 12.3-inch full-HD screen is controlled by the multi-function steering wheel. You can use the view button to switch between two modes, depending on your needs: a display with the instruments such as speedometer and tachometer in focus, and a display that shows graphic information such as maps and navigation content.

The innovative Audi connect* suite technology connects you and your Audi in real time, bringing you a host of advanced safety, security and infotainment features, while you're on the move.

Turn heads

From the widened single frame, to the side air intakes with sporty chrome trims, to the narrow headlights the progressive design of the A6 Sedan's front is evident at first sight. The sharpened shoulder line with strong curves above the wheel arches echo Audi's rich quattro legacy. The exterior mirrors have a sporty location by the armrest, while the coupé-like flowing roofline elegantly leads into the rear end, formed in three dimensions with characteristic aluminium styling.

The Audi S6 Sedan reflects the sporty, distinctive and pioneering qualities of Audi's design language. Numerous standard S-series exterior elements distinguish it from the standard model.

The exterior mirror housings have a striking aluminium aesthetic. At the rear, there are four chrome tailpipe trims integrated in the S-specific diffuser, while 20-inch wheels with aluminium rims and red brake callipers also come as standard for a dynamic finish.
