## THE NEW TIPO

**FIAT**

**YOU CAN WISH FOR MORE. OR GET THE BEST.**

The new Tipo is the best version of itself. Discover the new range, here to bring out the best in you.

For illustration purposes only

# YOU CAN CHOOSE. OR FORGET CHOOSING.

No more choosing between convenience and style. With the new Tipo the best has found a new way. A better style that is also better for nature, thanks to more efficient engine technology.

For illustration purposes only

THE NEW TIPO.  
**DIFFERENTLY BETTER.**

Completely revamped technology, enhanced with classy finishing, and now even more ecological. Let yourself be surprised by the new, different Tipo.

For illustration purposes only

THE NEW TIPO  
**UNCOVER POSSIBILITIES.**

Time to face the city at your best, and in comfort, of course. The new urban range with added innovation and functionality enhances everyday journeys.

THE NEW TIPO CITY LIFE.  
**ELEVATE THE EVERYDAY.**

By raising your standards it's easier to reach new places. The new Tipo City Life is the right choice to start something new. Every day.

THE NEW TIPO LIFE.  
**OVERTAKE COMPROMISES.**

Who said practical can't be elegant too? Live the city your way with the new Tipo Life. Two types - 5 door hatchback and sedan - with room for every style, each one comes equipped with the latest technology, and unrivalled comfort.

Combined (l/100km)	5,7	6,3
CO <sup>2</sup> emissions, combined (g/km)	141	146

\* Htchback

The CO<sub>2</sub> emission and fuel consumption values are defined based on official tests, in conformity with the provisions of the EU Regulations in force at the time of homologation. In particular, the indicated values are calculated based on the WLTP test procedure.

The CO<sub>2</sub> and consumption values are only indicated for the purpose of comparing the vehicle data. The CO<sub>2</sub> and consumption homologation values may not be representative of the effective CO<sub>2</sub> and consumption values, which depend on many factors related, for example, to weather and road conditions and to vehicle condition, use and equipment.

The CO<sub>2</sub> and consumption values specified in this document refer to the versions of the vehicle with the highest and lowest values. These values may change depending on the selected equipment and/or tyre dimensions. The indicated CO<sub>2</sub> and consumption values are not definitive and may evolve if the production cycle is modified. In any case, the official CO<sub>2</sub> and consumption values of the purchased vehicle will be provided with its accompanying documents.

If the CO<sub>2</sub> and consumption values affect the calculation of the vehicle duties and taxes, refer to the applicable standards in force.
